Prayers from Heaven, and your neighbors

Put your money where your mouth is

Patio furniture for the upstairs bar

Broadband Service push

Thinking about you

We know you are hurting. We know you have lost a loved one. We know you have a very difficult health crises. We know your operation didn't go so well. We know about the inconceivable of a child or grandchild with a serious illness. Please know that your neighbors are thinking of you, praying for you, and here if you need them. Our sorrow is your sorrow, stay strong, do not give up, and lets all keep each other in our thoughts and prayers.

New resident Gary Neff and golf member Paul Mooney took the stairs to the upstairs patio during the July 4th party. They took in a relaxing cigar while enjoying the beautiful views. They did however notice the need for pressure washing and the fact that there was no outside furniture in the patio. Being two take charge type A personalities, they asked what they could do to help and spruce up things. Gary and daughter Diana Azor pressure washed the deck and stained the railings. Paul and wife Rene ordered patio furniture and split the cost with Gary and wife Masi.

The furniture came in just in time for the opening of the upstairs bar and food truck event on Friday and went about assembling the furniture. Our heartfelt gratitude goes to the Mooney and Neff families for their generosity and labor of love.

Upstairs Bar to open every Friday night for Members and guests: 4:00pm-8:00pm

We have had a lot of interest in opening the upstairs bar for drinks and cocktails to members and their guests only.. On Friday nights the bar will open on a trial basis and we will gauge the participation and activity. The bar has been spruced up and is a wonderful spot to meet and socialize with your neighbors.

Your POA has been attempting to get Blue Ridge Mountain EMC to extend High Speed Broadband service to the entire Mountain Harbour community. Results have been mixed so far due to the expense of laying the pricey fiber optic cables.

The cooperative is applying for a grant that would extend fiber internet service to our area. If you would like to see this happen, please send an email to: broadband@brmemc.com detailing the necessities that fast and reliable internet would provide. Necessities like virtual employment, virtual learning, online research, banking, and health communications. Please send the e mail by this Friday, August 6th.
